OUR STORY

Operating since 2010, Norrish Earthmoving Repairs has built a reputation on providing quality work in a professional and timely manner. Situated in the Goldfields Region, this family-operated business is committed to providing unparalleled service and building strong client relationships. Our client base consists of many major mining contractors and local small businesses. Our skilled labour, most with EOM training, can provide expert service with the needs of the customer at the forefront of everything we do.

We are able to quickly mobilise to support with short or long-term assignments across Western Australia, delivering high quality services at a competitive rate.

WHY CHOOSE US

EXPERIENCE

With over 13 years of industry experience, we have built a reputation for delivering quality and reliable services.

PROFESSIONALISM

We pride ourselves on our professional approach and timely delivery of our services.

CLIENT RELATIONSHIPS

We value strong client relationships and strive to exceed expectations with every client and project.

COMMUNITY

We live, support and make a positive impact in the Goldfields. We are committed to creating a sustainable and thriving community for all.

OUR SERVICES

UNDERCARRIAGE

We are the experts in track frame rebuilds with specialist tooling capable of servicing and repairing equipment from any machine manufacturer. Offering CTS inspections and reports, we can assess the condition of your undercarriage and percentage of wear.

FIELD SERVICE SUPPORT

With our experienced team and comprehensive field service capabilities, Norrish Earthmoving Repairs is committed to delivering reliable and efficient support to keep your operations running smoothly. From labour hire to large excavator shutdowns, we can keep your downtime to a minimum.

COMPONENT REBUILDS

Norrish Earthmoving Repairs focuses on component rebuilds, offering a dedicated component rebuild facility that is equipped to handle a wide range of makes and models. We will rebuild to zero hours or according to client request. We provide warranty terms and conditions, along with installation checklists, to ensure peace of mind and quality assurance. With our commitment to excellence and precision, Norrish Earthmoving Repairs delivers reliable and comprehensive component rebuild services to optimise the performance and lifespan of your machinery.

MACHINE OVERHAULS

At Norrish Earthmoving Repairs, we are dedicated to providing comprehensive machine overhauls to ensure the optimal performance and longevity of your equipment. We have a dedicated workshop with state of the art facilities to complete your rebuild to your budget. We test and adjust all machines to ensure 100% productivity on return to site. With our expertise and commitment to quality, we strive to deliver reliable and efficient machine overhauls that meet and exceed our clients' expectations.

AIR-CONDITIONING REPAIRS

Our highly trained technicians can diagnose and repair air-conditioning systems on all types of equipment, ensuring optimal performance and comfort. In addition to standard repairs, we can also make hoses and supply all parts and fittings to ensure your downtime is minimal.

BOILERMAKING AND FABRICATION

Our team of experienced and qualified boilermakers are equipped to provide a wide range of boilermaking services to our clients, including the repair and maintenance of equipment, and the fabrication of new equipment. We take pride in providing high-quality boilermaking services that are safe, reliable, and cost-effective.

AUTO ELECTRICAL

Our auto electrical services cover a range of equipment and vehicles, including heavy machinery, light vehicles, and trucks. We use the latest diagnostic equipment and techniques to identify and diagnose problems quickly and accurately, which helps to minimise downtime and reduce repair costs. Our team can provide on-site auto electrical services, and we have the capability to design and engineer custom solutions to meet our client's specific needs.

SPECIALIST TOOLING AND DIAGNOSTICS

Our skilled mechanics excel in diagnosing mechanical, electrical, and hydraulic faults across all equipment makes and models, with expertise in Caterpillar® Electronic Technician (Cat ET) software. Backed by comprehensive resources and equipped with advanced testing tools and specialist equipment (such as a 20T Franna Crane, Hytorque gear, and 100-200 tonne track presses) we ensure precise diagnostics, fault resolution, and services like machine engine and hydraulic tuning for optimal performance.

Norrish Equipment Sales & Hire (NESH) are your go-to for all things machinery hire and sales. In addition to machinery hire and sales, NESH have the mechanical facilities and backup to ensure your project runs smoothly, with minimal downtime.

NESH can provide hire equipment, source equipment required for any job and provide machine set up. We understand that all sites and machines have specific needs, and at NESH we will obtain and install any site-specific items required. With many contacts across the mining and civil sectors in the Goldfields Region, we are a hub for everything Equipment Sales and Hire.

HIRE

- Supply earthmoving equipment
- Carry out on hire inspections
- Carry out off hire inspections
- Obtain site compliance documents
- Site compliance inspections and install
- Coordinate off hire back charges

SALES

Assist with purchase of equipment
